Creamos el repositorio

Create a new repository

Repositories contain a project's files and version history. Have a project elsewhere? Import a repository.
Required fields are marked with an asterisk (*).

General

Owner * keyvelcp-sketch / Repository name *

Great repository names are short and memorable. How about refactored-journey?

Description

0 / 350 characters

Configuration

Choose visibility *
Choose who can see and commit to this repository — Public

Add README
READMEs can be used as longer descriptions. About READMEs — Off

Add .gitignore
.gitignore tells git which files not to track. About ignoring files — No .gitignore

Add license
Licenses explain how others can use your code. About licenses — No license
